Thanks

Firstly, I would like to thank all of my English teachers who taught me throughout my life. I always appreciate them and pay respect to them.

Secondly, I would like to thank Assistant Lecturer Daw Swe Mar Aung and Khit Yadana and Thu Rein Htun, my friends. They support me a lot. I could not complete this book unless they give me their hands.

Last but not least, I would like to thank Saya Ko Ko Ye. It is because of Saya who asked for contributing to community. I pay homage to you and really thank to you.

To the fellows

English Grammar for Fellows is written for my fellows (fellows who have already studied English Basic) who need some help for grammar. Nevertheless I am not a perfect one yet, I would like to share my knowledge which I know.

In this book, it includes many points such as

- difference between I do and I am doing
- difference between want to and want (obj) to
- difference between would like to and would like (obj) to
- difference between used to do and used to doing
- usage of prepositions of time and place
- adverbs of frequency and so on

What's more, it consists of many vocabularies such as

- physical activities
- sports
- transport
- feelings
- personality
- social problems
- shops, etc.

Every unit contains a lot of exercises and intends to practise. There is the key for each exercise and you will check the answers.

In conclusion, although there are still needs in this book, I try my best as much as I can. If it is useful for you, I will walk on air.
